"Depuis 1994 je suis resté très régulièrement en relation avec Brian. Je garde le souvenir initial d'un élève paradoxalement docile et affirmé en cours de communication, un parfait représentant de l'écoute active. Il se montre réfléchi et déterminé dans toute démarche constructive abordée, théorique ou pratique. Mon bonheur actuel avec lui est que l'élève a bien sûr dépassé le maître. Il le fait d'autant mieux que la pédagogie

a toujours été un de ses nombreux centres d'intérêt. Nos échanges actuels sont culturels et pour le plaisir de la connaissance."
